No. 69

9th June 2008

Meriden (Guangzhou) Biotech Co Limited presents seminar on new concept for benchmark product Orego-Stim[®]

Dr Gene Jin PhD/MBA of Meriden (Guangzhou) Biotech Co Limited presented at a range of seminars in the major swine production provinces (Henan, Hubei, Sichuan, Liaoning etc) in China in May and June to many hundreds of people. The seminars aimed to highlight the benefits to the feed and livestock industry of using *Orego-Stim[®]* as a way of reducing their production cost while advance in their operation system.

Orego-Stim[®] is a 100% natural phytobiotic feed additive containing pure oregano essential oil for use in pig diets. *Orego-Stim[®]* not only enhances healthy gut function, but is also renowned for its other interesting properties.

The seminars were attended by leading technical directors, chief nutritionists from feed mills and integrators, and lecturers and professors and created a great deal of interest and enthusiasm in relation to *Orego-Stim[®]*. It was agreed that plant extracts play an important role in 21st century farming system and the benefits are undeniable.
