#### Using *Orego-Stim*<sup>®</sup> in the feed or water will benefit **broiler and layer** production by:

- Helping to maintain a healthy immune system
- Maximising intestinal health
- Producing drier faeces + drier litter = less ammonia
- Reducing mortality
- Decreasing incidences of diarrhoea caused by common intestinal diseases
- Improving efficiency of growers
- Providing extra protection during stressful periods
- Improving growth rates and feed conversion ratio
- Improving the efficiency of layers and uniformity of the eggs
- Increasing egg production
- Reducing the number of cracked, inferior and dirty eggs

#### Using *Orego-Stim*<sup>®</sup> in the feed or water will benefit **swine** production by:

- Adding loin depth → leaner carcass = Higher Returns
- Increasing fertility, litter size and weaning weight
- Reducing stress during weaning
- Improving growth and feed conversion ratio
- Maximising intestinal health and preventing diarrhoea
- Preventing incidences of coccidiosis
- Optimising growth of the intestinal villi for better absorption of nutrients
- Helping to maintain a healthy immune system
- Improving palatability and feed intake
