News Release

No. 93

20th May 2009

Meriden launches *Orego-Stim*[®] Canine Complete in the UK

Orego-Stim[®] was launched in year 2000 as a result of many years of research and development. It has been used around the world since, not only in mainstream agricultural livestock species such as chickens, pigs, cattle, goats, sheep, pheasants, fish and shrimps but also in hobby markets such as racing pigeons, show poultry and smaller caged birds.

In 2005, *Orego-Stim*[®] Pigeon Liquid was launched in the UK pigeon fancier and racing pigeon market. Due to the generous amounts of positive feedback received since its launch, business has successfully expanded to international markets and also the caged bird market.

Orego-Stim[®] Canine Complete has now been added to our specialty product range in the UK, enabling British dog owners to reap all of its benefits, simply by adding it into the food or drinking water of their beloved companions.

Healthier gut = Happier dog

- Anti-stress
- Anti-diarrhoea
